D1 è anche un programma di tavoli meeting: disponibili nelle versioni rettangolari e quadrate, consentono di organizzare al meglio ogni tipo di incontro. Particolarmente funzionali i **tavoli riunione multipli, con sostegni intermedi condivisi** ed elettrificabili. Linee essenziali e proporzioni curate li rendono veri tavoli di design, capaci di coniugare estetica e funzionalità negli spazi di lavoro.

D1 is also a collection of meeting tables, available in rectangular and square versions, designed to accommodate every type of meeting. The multiple meeting tables, with shared and electrifiable intermediate supports, are highly practical. Clean lines and well-balanced proportions make them true design pieces, combining style and functionality in the workspace.

D1 Meeting
Il sostegno intermedio elettrificabile è una soluzione altamente funzionale: permette la canalizzazione dei cavi dal pavimento, mantenendoli completamente nascosti e con uscita tramite top access. Un dettaglio che assicura praticità d'uso e continuità estetica.

D1Meeting
The electrifiable intermediate support is a highly functional solution: it allows cables to be routed from the floor, keeping them completely hidden with a top access point. A detail that ensures both practicality and visual continuity.
